

# THEMATIC NETWORK 2018

SMART HEALTHY AGE-FRIENDLY ENVIRONMENTS

## ACTION PLAN

**Caritas Diocesana**  
de COIMBRA

## QUESTIONS

How to enhance Places and People in the creation of eHealth and mHealth solutions, with special focus on quality and costs?

What is the current state of the art in Europe of e-support at home to people with chronic diseases and/or impairments?

How to align technological development with the building industry for smart environments with in terms of policy and funding, enhancing a more efficient health care system that may add better quality for less investment?

How to bridge the main gaps between technological development and user's real needs and expectations?

## PREPARATIONS

Literature  
AAL findings  
FP6, FP7, H2020 findings  
EIP AHA repository  
Experts interviews  
End-users interviews  
Survey

## FRAMING PAPER

Background  
State of the art eHealth and mHealth Quality and Costs, people with chronic diseases/impairments  
Stakeholders opinions  
Best practices  
Common principles

## JOINT STATEMENT

Common position on Smart Healthy Age Friendly Environments  
Recommendations EU policy making beyond 2020
